

CHANGES IN CABINET

TORNEY GENERAL MOODY AND SECRETARY SHAW HAVE DECIDED TO RETIRE.

RAUS TO SUCCEED METCALF

FOR THE FIRST TIME IN HISTORY A HEBREW WILL HOLD A CABINET POSITION.

Washington, Oct. 24.—The following statement regarding prospective changes in President Roosevelt's cabinet has been made public at the White House:

"On the retirement of Secretary of War and Attorney General Moody from the cabinet the following changes will be made:

"Secretary of the treasury, George B. Cortelyou.

Postmaster general, George von L. Meyer.

"Attorney general, Charles J. Bonaparte.

"Secretary of the navy, Victor H. Metcalf.

"Secretary of commerce and labor, Oscar S. Straus."

The general understanding for some time has been that Attorney General Moody would retire on Jan. 1, 1907, and that Secretary Shaw will follow him.

March 4. On the first of the year therefore, Mr. Bonaparte, who is now secretary of the navy, will succeed Mr. Moody as attorney general and he will in turn be succeeded by Mr. Metcalf.

Secretary of commerce and labor, the latter's place being filled by Mr. Straus. Mr. Cortelyou, now postmaster general, will take Secretary Shaw's place on March 4, at which time Mr. Meyer is to become postmaster general.

The announcement of the prospective changes in the cabinet was made after a protracted cabinet meeting at which it is understood the whole matter was considered fully. The changes contemplate the introduction of two new men in the cabinet, Mr. Meyer, who is to be postmaster general, and Mr. Straus, who is to be secretary of commerce and labor.

Straus Was Seldom Mentioned.

The fact that Mr. Meyer was to have place in the cabinet has been known for some time but the name of Mr. Straus has been mentioned only incidentally, if at all, in connection with the circle of the president's advisors.

The transfers of Messrs. Cortelyou to the treasury, Bonaparte to the attorney generalship and Metcalf to the navy have been generally accepted as among the probabilities for some time, though it has been known that both Mr. Bonaparte and Mr. Metcalf were for a time loath to leave their present positions because they had become so fully identified with the work of their respective departments.

Mr. Meyer, who will become postmaster general, is ambassador to Russia, to which place he was appointed in March 6, 1905, having been promoted to that office following his service as the ambassador to Italy from 1900 to 1905. He is a native of Massachusetts and has been well known as a business man.

The appointment of Mr. Straus caused considerable surprise, as it will be the first case where a citizen of the Hebrew faith has been made a member of the president's cabinet. He was born Dec. 8, 1850, and is well known as a merchant, diplomat and author. He represented the United States as minister to Turkey and was appointed by President Roosevelt to fill the vacancy caused by the death of ex-President Harrison as a member of the permanent court of arbitration at The Hague.

WRECK IN SOUTH DAKOTA.

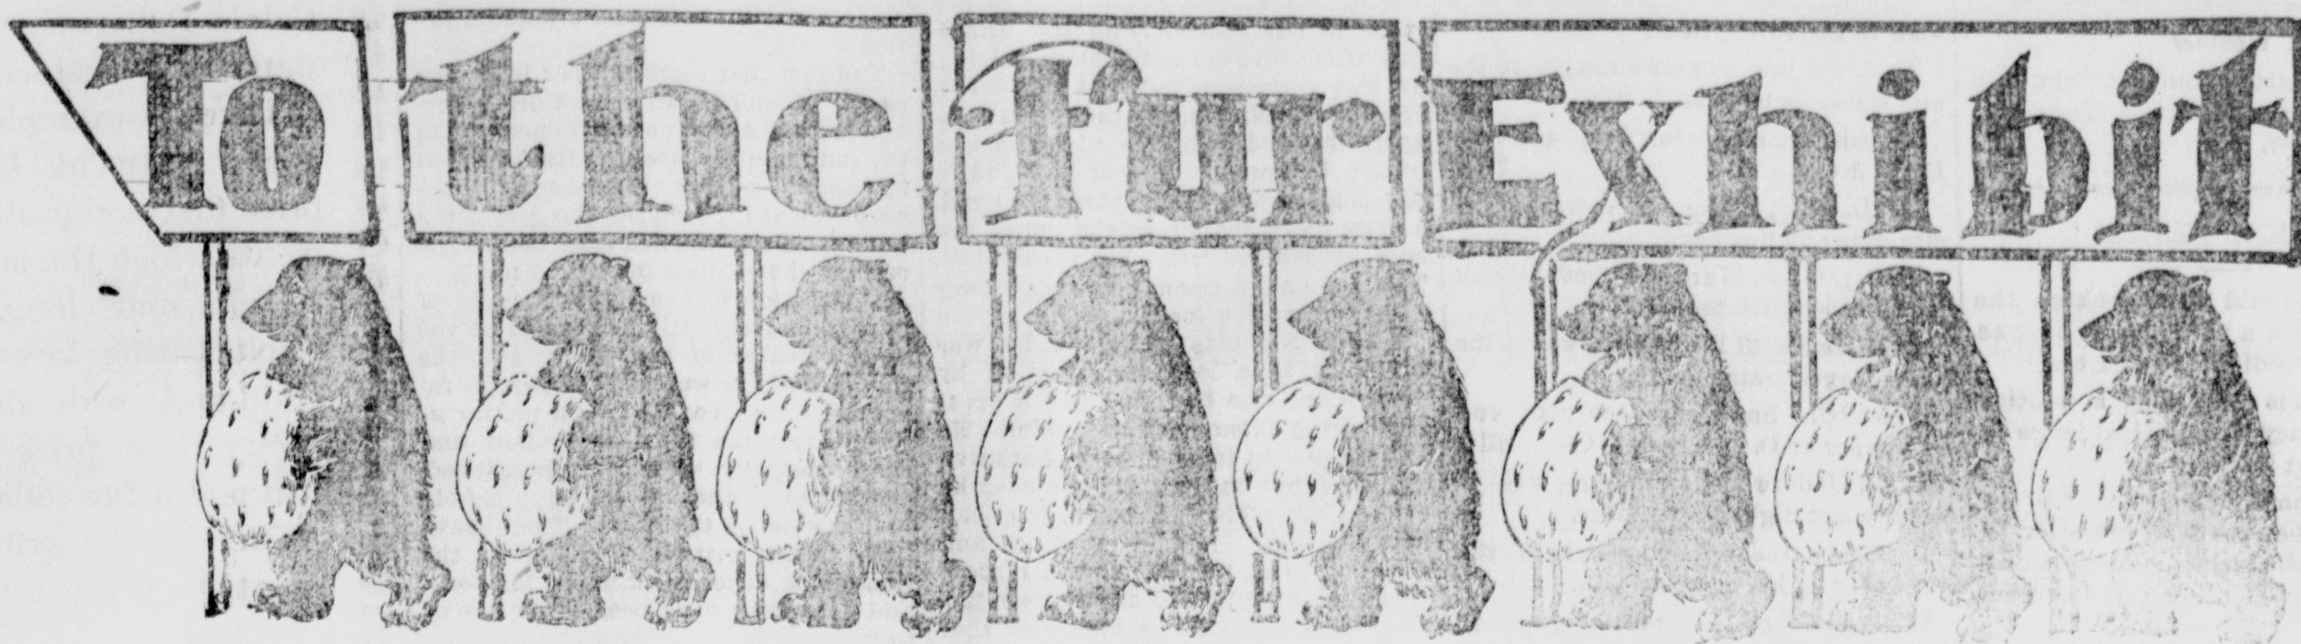

One Man Killed and Three Others Injured.

Aberdeen, S. D., Oct. 24.—Arthur Mayo of this city was killed, F. Springer was injured in the head, with the result that he has become insane, and E. M. Chamberlain and Lowell Johnson were injured in a wreck on the Chicago, Milwaukee and St. Paul road near Ipswich, S. D.

All of the victims were firemen on a double-header train that crashed into a stock train, wrecked twelve cars and then turned over. Two hundred head of cattle were killed in the wreck.

Large Sawmill Burned.

Antigo, Wis., Oct. 24.—The large sawmill of the Wisconsin Timber and Land company, valued at \$25,000, together with about \$100,000 worth of lumber in the yards adjoining the mill, burned to the ground at Mattoon, fourteen miles south of Antigo.

We have made special arrangements with Gordon & Fergeson, manufacturers of the famous "GORDON" furs, to send us a splendid assortment of mink and other fine small neck furs. These will be on display tomorrow, Friday and Saturday and we trust that we may have the of showing you pleasure the line.

LEAVE THEIR VICTIM TO DIE.

Minneapolis Thugs Rob a Librarian and Try to Asphyxiate Him.

Minneapolis, Oct. 24.—Bound and gagged and left to die, his head a few feet below a gas fixture, the valve wide open, Benjamin Ridges, librarian at the North Side library on Twentieth avenue, was rescued by the police at 10:30 p. m. just as the death stupor was becoming manifest.

Ridges is now in the city hospital in a critical condition from the gas fumes and the beating he received at the hands of two masked men who are still at large.

Shortly after 9 p. m. Ridges, who was alone in the library, started to close up and was about to leave when two masked men seized him by the throat and hurled him to the floor.

Ridges was then bound and gagged and left lying on the floor while the thugs searched the building. They took \$18 in cash from the till.

Then, disappointed at the small amount of plunder, the fiends beat Ridges into insensibility.

Not satisfied with this, the thugs closed the doors and windows and, dragging Ridges' unconscious form beneath one of the gas fixtures, turned on the gas and left him to die.

Ridges recovered consciousness, worked the gag from his mouth, butted the telephone receiver from its hook with his head and told the telephone operator to send the police to the library, as he was dying. Officers arrived just in time to prevent the asphyxiation of Ridges.

POLITICAL DEVELOPMENTS.

Interesting Happenings in the New York Campaign.

New York, Oct. 24.—There have been some political developments of interest here.

Chairman William J. Connors of the Democratic state committee appointed an executive committee to push the state campaign, and Charles F. Murphy, head of Tammany Hall, called upon the Tammany leaders to support the party nominees with loyalty and energy.

The grand jury, which has been investigating Mr. Murphy's recent charges that Independence league representatives were trying to hold up Democratic candidates, dismissed the subject as "campaign gossip."

Charles E. Hughes, the Republican candidate for governor, left Kingston for a half dozen speeches in the counties of Orange, Delaware and Chemung and closed the day's work with an evening meeting at Elmira.

William Randolph Hearst spent the day in town, addressing three city meetings at night.

The judiciary nominators held a meeting at Carnegie Hall in the interests of an independent judiciary. Among the speakers were Joseph H. Choate, late ambassador to the court of St. James; former Judge Alton B. Parker and former Secretary of the Navy Benjamin F. Tracy.

COMPANY MUST SHOW CAUSE.

Why It Should Not Be Enjoined From Carrying on Campaign.

New York, Oct. 24.—The International Policyholders' committee has ob-

tained an order from Justice Bishoff requiring the New York Life Insurance company and its directors to show cause on four counts why an injunction should not be granted restraining the defendants from carrying on their campaign for the "election of the administration ticket" at the expense of policyholders.

The action was instituted by Stephen Farrelly, general manager of the American News company. He made the complaint in his own behalf and on behalf of all other policyholders of the company to restrain waste and diversion of the company's funds and to compel the directors to account for the large sums already expended in carrying on their campaign.

The action is the result of the company's alleged plan of campaign by which the mutilated official ballots are alleged to have been sent out through the company's agents with the names of the candidates on the international committee ticket stricken off, and each ballot containing the number of an existing policy.

"THE CLANSMAN" SUPPRESSED.

Mayor of Philadelphia Forbids Its Production in That City.

Philadelphia, Oct. 24.—Mayor Weaver has issued an order suppressing the further production here of the drama "The Clansman," which began Monday night and which was to have a week's engagement at the Walnut Street theater. The mayor's action was prompted by the demonstration Monday night at the theater by several thousand colored citizens.

A delegation of representative colored men consisting of clergymen, doctors, lawyers and business men called upon the mayor and protested against the continuance of the play because of its alleged tendency to arouse racial prejudice and to incite riot. The chief spokesman for the delegation was former Congressman George H. White of North Carolina, who now resides here.

Counsel for the management of the theatrical production claimed that there was redress through the courts for those opposed to the play and charged that the colored people and not the players were responsible for Wednesday night's riotous demonstration. After hearing both sides Mayor Weaver took counsel with the city solicitor and later decided that "The Clansman" was calculated to produce disorder and endanger lives. In consequence of this he ordered the withdrawal of the piece.

The management of the play will go into court and apply for an injunction restraining the mayor from interfering with the production.

REVOLUTIONISTS EXECUTED.

Salcido and Other Mexican Rebels Put to Death.

Phoenix, Ariz., Oct. 24.—A special to the Republican from Tucson says that a well known citizen of that place, whose name is withheld, has returned from Nogales, where he was authoritatively informed that Salcido and all the other revolutionists recently deported from Arizona were taken to Hermosillo and summarily executed, notwithstanding official statements to the contrary.

REDUCTION OF RATES

EVIDENCE OF FAVORITISM IS BROUGHT OUT AT HEARING IN KANSAS CITY.

COMBINE TO FIX THE PRICES

BOARD OF TRADE MEMBERS OF KANSAS CITY SAID TO HAVE FORMED A TRUST.

Kansas City, Oct. 24.—Evidence of favoritism shown to the managers of the Kansas City elevators of the Chicago, Milwaukee and St. Paul railway in the matter of granting reduced grain rates to shippers; the existence of a rule in the Kansas City Board of Trade threatening its members with suspension if they dealt with irregular grain men, so-called; a combine of members of that organization to fix prices, and threats by grain dealers' associations—to boycott boards of trade members who might buy from farmers and others against whom the associations had issued orders, were some of the things brought out here at the grain hearing by the interstate commerce commission.

A score of grain dealers, elevator men and railway officials were examined.

E. W. Shields, elevator agent for the Chicago, Milwaukee and St. Paul railway and active manager of the Simonds Shields Grain Co. of Kansas City, who was instructed by the commissioners to return here from St. Louis, proved an important witness.

Mr. Shields said he was in Chicago last fall when he was called upon to advise about a special export rate on corn. He helped make a rate, effective several days later, then came home and bought corn right and left. He shipped 3,500,000 bushels of corn under the special rate. He had bought more than 1,000,000 bushels before other dealers learned that the reduced rate would be made.

Again this summer, he said, he happened to be waiting around the office of the vice president of the Chicago, Milwaukee and St. Paul railway when the road agreed on a cut of 2½ cents a hundred pounds on wheat. He went out and sold several hundred thousand bushels for delivery under the rate.

TAKE THE IMMUNITY BATH.

Great Northern Railway Employees Before Grand Jury.

Minneapolis, Oct. 24.—Seven men were given the immunity sweat bath here by United States Attorneys Hout and Ewert and Special Agent H. B. Duncan, before the special grand jury summoned to hear evidence in connection with railroad rebating.

They were C. S. Cori of the Devereaux Grain Co.; R. G. Kyle, agent Great Northern at Minneapolis Junction; George G. Ingram of the Great

It is said that the evidence so far has tended to show that a rebate of half a cent per bushel has been received by a prominent grain firm for all grain shipped over the Great Northern.

Should the grand jury return indictments, the cases will probably be set for the April term. The new term of the federal district court will begin in April and enough time will intervene to enable the defendants, whoever they may be, to prepare their defense.

SELLS OUT TO HARRIMAN.

Stuyvesant Fish Disposes of His Interest in a Securities Company.

New York, Oct. 24.—The Tribune says Stuyvesant Fish, president of the Illinois Central Railroad company, has sold to E. H. Harriman his one-third interest in the Railroad Securities

company, of which he has for several years been vice president and Mr. Harriman president, and has resigned as an officer and director of that corporation. The Railroad Securities company, upon its organization, acquired 80,000 shares of Illinois Central stock, against which it issued \$8,000,000 in collateral trust bonds, which were subsequently exchanged for stock interest certificates. Its Illinois Central holdings, it is understood, now aggregate 94,730 shares. Mr. Harriman and his friends, owning a two-thirds interest in the Securities company, have controlled the entire 94,730 shares of Illinois Central held by the company.

It is understood that Mr. Fish receives from Harriman payment for his interest in the Railroad Securities company partly in cash and partly in Illinois Central stock.

MRS. LESLIE WAS MURDERED.

Actress Found Dead in Chicago Did Not Commit Suicide.

Chicago, Oct. 24.—Mrs. Margaret Leslie, the actress found dead in her room in the Palace hotel last Thursday afternoon, did not commit suicide, as was supposed, but was murdered.

Herbert H. Nicholas, a theatrical manager, arrested Saturday night on suspicion, has confessed that he aided in the murder and that George Leopold, a drug clerk for whom the police are now searching, was his accomplice.

The woman's diamonds and her money were the motive for the crime.

Before Nicholas confessed he was subjected to a long investigation by the police, who had gathered a great deal of evidence against him. He first offered to tell his story if granted clemency but on this being refused he made a complete confession, implicating Leopold. He said that he and Leopold went to the woman's room Wednesday night and after a few moments' conversation he suggested that they have a drink, producing a bottle of whiskey. Mrs. Leslie was taking off her jewels at the time and her back was turned toward them. While in this position, Leopold, according to Nicholas, seized the woman by the throat and choked her into insensibility. Throwing her on the bed they placed a towel saturated with chloroform over her face.

The men then took some of the woman's garments and tied them tightly around her neck. Seizing her jewels, which were valued at \$2,000, the men turned on the gas jets, hurried out of the room and left the hotel.

It was the anxiety on the part of Nicholas to realize money on the jewelry which led to his arrest. Detectives working on the case found some of the diamonds in a pawnshop and they were traced to Nicholas. He was then arrested and he declared that Mrs. Leslie, who had been an old friend of his, had given them to him.

SERIOUS LABOR PROBLEM.

Confronts All the Railroads West of Pittsburg.

Chicago, Oct. 24.—The Western railroads are facing a serious labor problem. The Brotherhood of Railroad Trainmen, on behalf of its switchmen, has presented demands to all the railroads centering in Chicago for an eight-hour day. The Brotherhood's action follows that of the Switchmen's union, which presented similar demands some time ago. The railroads will be obliged now to deal practically with the whole organized strength of the trainmen instead of the fractional part represented by the Switchmen's union. In this respect the move is the most extensive attempted by the railroad organizations in many years.

Every railroad in the United States west of Pittsburg and Buffalo is involved.

While the Brotherhood's demands were presented to the railroads simultaneously in a dozen large cities, the main movement originated in Chicago.

Some say that city girls are poor ignorant things. Some of them cannot tell a horse from a cow, but they do know that Hollister's Rocky Mountain Tea is one of the greatest beautifiers known. Tea or tablets, 35c. H. P. Dunn & Co.

UNIFORMITY IN DIVORCE LAWS.

Committee of Divorce Congress Has Framed a Measure.

Philadelphia, Oct. 24.—Judge Staake of this city, secretary of the divorce congress, has received from its committee on resolutions and forwarded to the various delegates a proposed measure for bringing about uniformity in the present divorce laws of the United States.

The proposed statute is the outcome of deep study on the subject by eminent lawyers and jurists and prominent churchmen, all of whom are conversant with existing conditions of the so-called divorce evil, and the proposed new act is calculated to insure remedial results all over the country. Its compilation was entrusted to the resolutions committee, which consists of representatives to congress from this state and New Jersey and they will unanimously report the proposed act to the congress, which reassembles in this city on Nov. 13.

Practically every state and territory will be represented at the meeting.

As soon as practicable the delegates will attempt to have the proposed new law enacted in their respective states.

While little or no change is made in the given causes for divorce as now existing, certain provisions of the new act were evidently made with a view of arresting the increasing demand for legal severance of marital bonds. Under these stipulations secret or star chamber sessions for hearing divorce cases are done away with and all hearings and trials shall be public.

SIGNS IN THE THUMB

WHAT THEY MEAN AND HOW YOU MAY LEARN TO READ THEM.

They Serve as an Index to the Character of the Individual—The "Thumb Center" in the Brain—Position of the Well Balanced Thumb.

The gypsies have always recognized that the thumb is the most important factor in delineating special tendencies. These nomadic people are the most intuitive on earth, and the fact that in their fortune telling they often confine their prognostications to the thumb alone is worth more than a passing notice.

The fact that there is what is known as the "thumb center" in the brain, recognized by all surgeons, demonstrates the immense importance attached to it by medical science. If there is a tendency toward paralysis the physician notes it in the thumbs long before the malady shows itself in other directions. An operation to avert the calamity if possible is frequently performed on the thumb center of the brain, and the thumb itself is watched for results favorable or otherwise. It is a matter of record that the thumbs of idiots and those mentally weak are undersized, characterless and usually cling closely to the side of the hand. There have been books written on signs in the thumbs as denoting criminal instincts, and detectives have been often moved to consider seriously this phase of the hand in making their deductions in puzzling cases.

The position of the thumb with reference to the rest of the hand makes either for or against favorable tendencies. If it is bound to the first finger at a close angle, lying nearly parallel, it indicates a weak and cowardly nature. People with such thumbs are not open and frank in character, preferring to creep along in the shadow and profit by another's enterprise. If in connection with this position it should be very small, with vacillating, almost invisible joints, it indicates mental weakness. If, on the contrary, it lies out at right angles or even farther it shows want of balance in another direction. The person will rush to extremes and is independent and aggressive almost to foolhardiness. Such people are disagreeable to associate with in any enterprise, as they always want their own way and are not subservient to authority.

The well balanced thumb lies at an angle of about forty-five degrees from the first finger. The joints of the thumb also tell their story. The limber jointed thumb which turns back from the hand is a misfortune to its owner. He will never be rich by saving his earnings, and if a fortune should be left him it is likely to be soon dissipated. He is a spendthrift by nature, not only in money, but in thought. If he gets a hobby he rides it to death, and his policy in all the affairs of life will be, "If a little is good, more is better." And if he does not actually live out all his impulses he will always fret in the spirit and grow rebellious in resisting his natural tendencies.

The stable jointed thumb is everything that is the opposite to the first type. And while the people with these thumbs are not so companionable or so helpful to others they succeed by concentration and a certain amount of selfishness. They have the directness of purpose and the tenacity to carry to successful issue great enterprises. They are stubborn, material, stolid, resistant. The chimpanzee, which has the hand most nearly resembling the human, shows the greatest weakness and want of intelligence in its undersized short thumb. And in the human race the long thumb may be taken as indicating the more intellectual nature. The shorter the thumbs the more brutal and passion governed the nature.

The relative length of the joints also plays an important part. The first indicates the will power, the second denotes judgment, reason and logic, and the third, which controls the mount of Venus, indicates the affections and love of fellow beings. In a well balanced nature the first and second joints are about of equal length. This indicates a wholesome adjustment between the judgment and the will. If, however, the first joint is longer than the second the will exceeds the judgment, and the person is likely to be stubborn and often acts without reason. When the second joint is the longer a person plans better than he executes. In this way he often gets the reputation of being visionary and is frequently full of schemes which he lacks the will to carry out.

The third joint, or "ham," of the hand when too thick indicates ungovernable passions and an inordinate love of the opposite sex. Such a person will be "half fellow well met," a boon companion, but is likely to neglect the intellectual demands both of his home and his other self.

When the second joint is thin and small in circumference as compared with the first it is said to indicate great tact and niceties in judgment, even to the splitting of a hair. Whether the hand is firm or flabby it has a modifying influence in all cases.

Worlein was recently married and was to have left on his wedding trip today.

WORK WEAKENS THE KIDNEYS

Doan's Kidney Pills Have Done Great Service for People Who Work in Brainerd

Most Brainerd people work every day in some strained, unnatural position—bending constantly over a desk—riding on jolting wagons or cars—doing laborious housework; lifting, reaching or pulling, or trying the back in a hundred and one other ways. All these strains tend to wear, weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood. Doan's Kidney Pills cure sick kidneys, put new strength in bad backs—Brainerd cures prove it.

Mrs. Peter Christenson, of 1101 Rosewood St., S. E., Brainerd, Minn., says:

"It is over two years ago when Mr. Christenson was doing heavy contracting work that kidney complaint made its appearance in the form of backache and pains over the kidneys. Sometimes it caused lameness so bad that it required great effort to keep at work, and at best there was a continual annoyance. Doan's Kidney Pills, sold by H. P. Dunn & Co., druggists, were procured on the advice of a friend, and the results of their use was so satisfactory that every symptom of his trouble disappeared. The improvement in his condition has remained unchanged during the time which has elapsed since then."

Result of Neglect.

In most cases consumption results from a neglected or improperly treated cold. Foley's Honey and Tar cures the most obstinate coughs and prevents serious results. It costs you no more than the unknown preparations and you should insist upon having the genuine in the yellow packages. H. P. Dunn & Co.

THE
MARK
OF
MERIT.

This is the trade-mark, and guarantee of the great Buck's stoves and ranges, the mark of quality, of scientific construction, and a guarantee of all that is embodied in their construction.

In the millions of American homes, will be found more stoves and ranges bearing this trade-mark, than any others.

The perfection of this line is the result of 60 years of scientific test in stove building.

Legislative Party is Very Much in
Favor of State Drainage
Of Lands

THEY WERE MUCH SURPRISED

New Views

The party of business men and legislators which went up to Big Falls Monday night was in this city today on its way back to St. Paul. They were scheduled to arrive in this city at 10:35, but stopped at the shops and did not get down to the business district until about 11:45.

They were at once conducted to the rooms of the Commercial club where, after a few minutes of informal greetings, the assemblage was called to order by R. R. Wise, president of the Commercial club, who called on Prof. Thomas Shaw for a few remarks. Mr. Shaw, who was formerly a member of the faculty of the state school of agriculture, is the northwestern editor of the Orange Judd Publications; "The Orange Judd Farmer," "American Agriculturist," "New England Homestead," and "Farm and Home." These periodicals have a combined circulation of over 500,000 so that Prof. Shaw writes to much over 1,000,000 readers and is considered one of the greatest authorities in the west on all subjects of this character.

Prof. Shaw said that in all travels about the state of Minnesota he never made a trip which did not raise his estimation of the capabilities of Minnesota as an agricultural state and that he never made a trip which raised that estimate more than had the present one. The capacities of the soil of the hardwood lands were almost unlimited for the raising of clover and grasses he says. He stated that heretofore he had a wrong conception of the capabilities of the jack-pine land. He had believed that it had practically little capabilities in the way of raising crops, but was compelled to change that opinion as he had seen evidences of what it would do and much of the jack-pine land had a sufficient amount of clay to make it productive. He believed with intelligent culture it was a safe proposition for any farmer to undertake to make a living on the average jack-pine land. If sufficient vegetable matter was kept in the soil to hold moisture it would raise fine crops.

In speaking of the swamps he said that while he would not go to the length of some and say that there was no peat in Minnesota, he would say that there was very little compared to the swamp lands. The swamps are mostly underlaid with muck, instead of peat, and if properly drained their fertility would be unlimited. They would grow an average of 150 bushels of potatoes or two tons of hay per acre and do it for 25 or 30 years without further fertilization. The land would raise 500 to 1,000 bushels of turnips or other root crops per acre and two acres would produce 250 pounds of beef a season or support a cow that would produce 2,000 pounds of milk. The state he said in conclusion could not afford to let the country remain undeveloped while the sons of the Minnesota farms and the daughters of Minnesota homes were going to Canada and elsewhere for farms. Not only could the state not afford to neglect to make this land productive by drainage, but it would be a crime to do so.

Professor Shaw was followed by Hon. C. J. Gunderson, of Alexandria, who opened by stating that it was an old saying that life was a school from youth to old age, and that he had been a

school boy again the past two days and had learned much. He said that there was no doubt of the duty of Minnesota in the matter of the Northern Minnesota lands if once satisfied, first that the lands would be productive if drained. Second, that it was feasible from an engineering standpoint to drain the lands and third, if it could be done at a reasonable outlay. The first, he said, had been proven by the exhibits shown the party. The evidence of the engineers satisfied him; as to the other two points and he deemed it necessary now only to satisfy the people of the state of the truths that had been shown to this party.

Speaking of the commercial clubs at his home town of Alexandria and elsewhere in the state, he said that the idea had just come to him that many of them were missing their greatest opportunity in not working systematically to increase the output of the farms, as well as to secure the trade of the farmers, and that the clubs should not only draw the business men together but should bring the farmers and the business man into closer harmony.

The party then adjourned to the Ransford for dinner, as guests of the club, after which their cars were attached to train No. 90 for St. Paul. Their train consisted of the private car, Yellowstone, and a pullman sleeper, Supt. Strachan's car, No. 50, being attached to the train here for the run up the Minnesota & International.

The members of the party were as follows:

Ezra W. Gates, Garden City; R. H. Jefferson, Bingham Lake; John T. Lewis, Lake Crystal; H. E. Hanson, Windom; Elias Rachie, Madison; Henry B. Vollmer, Stillwater; S. O. Morse, Slayton; O. G. Dale, Madison; W. H. Putnam, Red Wing; R. L. Mork, Briceyn; Ambrose Tighe, St. Paul; S. F. Alderman, Brainerd; S. A. Nelson, Lanesboro; F. B. Wright, Minneapolis; A. G. Johnson, of St. Paul, all members of the next legislature; John Abercrombie, ex-drainage engineer, St. Paul; G. A. Ralph, engineer state drainage committee, Crookston; A. K. Pruden, business, St. Paul; J. H. Beek, secretary Jobbers & Manufacturers association, St. Paul; Prof. Thos. Shaw, agricultural writer, St. Paul; S. G. Iverson, state auditor, St. Paul; W. H. Gemmell, general manager M. & I. Ry.; W. H. Strachan, Supt. M. & I. Ry.; C. W. Mott, immigration agent N. P. Ry.; C. P. Stine, secretary of commercial club, St. Paul; C. N. Cosgrove, president Minnesota Agricultural society, LeSueur.

Henry E. Jones, of Tampa, Fla., writes: "I can thank God for my present health due to Foley's Kidney Cure. I tried doctors and all kinds of kidney cures, but nothing done me much good until I took Foley's Kidney Cure. Four bottles cured me, and I have no more pain in my back or shoulders. I am 62 years old, and suffered long, but thanks to Foley's Kidney Cure I am well and can walk and enjoy myself. It is a pleasure to recommend it to those needing a kidney cure." H. P. STORM DELAYS MANY TRAINS

All Trains Schedules are Shot to
Pieces by the Nasty
Weather Today

TWO SMALL WRECKS REPORTED

Car of Logs Off on Kelliher
Branch Delays M. & I.—
No. 11 Also Delayed

The train schedules are all shot to pieces by the weather man today. The slippery condition of the track made trains very liable to jump the track and the result was that two trains were delayed by minor wrecks today. No. 11 was delayed nearly two hours at Deerwood by a freight car that jumped the track there shortly before the passenger came along.

The Minnesota & International was nearly an hour late because of a similar catastrophe to a car of logs on the Kelliher branch. No. 91 was also considerably behind time and the delay to No. 11 also delayed No. 12 about an hour and a half. Freight trains ran on any old schedule, and the railroad men were all in an extremely pleasant frame of mind.

It is really one of the most wonderful tonics for developing the figure and soothing the nerves ever offered to American people. Hollister's Rocky Mountain Tea or tablets 35c. H. P. Dunn & Co.

AMUSEMENTS

Harry Beresford in "The Woman Hater"

"The Woman Hater," in which Harry Beresford is starring this season, is so full of ludicrous situations that no audience can fail to be convulsed. Held as a woman-hater, Samuel Bundy, to the astonishment of his friends, puts aside his aversion to the ladies, and selects Mrs. Joy as his bride elect. He becomes so intoxicated with his new found happiness, that in his exuberance of spirits, he becomes entangled with other ladies. Before he realized what has happened he finds that he is engaged to three. Of course his position is one that requires strategy and even daring. Besides his own troubles he is mixed up with the love affairs of his nephew, Tom Ripley, and on top of that, his friend, Prof. Horace Mulbridge imposed upon him the duty of helping him out of a secret engagement which he has entered into with one of the very ladies to whom Bundy had successfully proposed. It is plainly evident that Bundy has his hands as well as his heart full, and he is kept busy explaining with artful falsehoods. The whole affair has halfway unsettled the reason of Mulbridge, and his sister, who is one of the Bundy fiancées, decides to have her brother placed in a private insane asylum. Unfortunately Mulbridge and Bundy wear the same shade of trousers, and by mistake Bundy is taken to the asylum. His expostulations and attempts to escape are extremely ludicrous. To cap the climax the lady whom he really wishes to marry thinks he is crazy also, and although he has frightened the others out of his way he is about to lose his sweetheart also. Of course explanation follows and all ends happily.

The character of Bundy is one that gives full scope to the comedy gifts of the star. As the New Orleans Picayune said: "Beresford is bubbling over with fun and the laughs are many and come naturally."

The announcement that Harry Beresford will play "The Woman Hater" at the opera house on Friday, Oct. 26th, will give much pleasure to the theatre-goers of this city. He is easily the most popular comedian of the day, and has long since stepped into the shoes of the late Sol Smith Russell.

WEDDING RECEPTION

Very Pleasant Reception Given to Mr. and Mrs. Charles W. Oberg Saturday Evening Last

Despite the very unpleasant weather Saturday evening about 75 relatives and friends gathered at the home of C. J. Oberg to celebrate the marriage of Miss Emma Carlson and Chas. W. Oberg. The evening was spent in conversation and games and they enjoyed a very elaborate repast. The high appreciation in which the couple is held was manifested by the large number of present bestowed upon them, gifts coming from various parts of the state and from distant states. Cuyuna Council, Modern Samaritan, of which they were members bestowed a handsome leather chair upon them.

Foley's Honey and Tar cures the most obstinate coughs and expels the cold from the system as it is mildly laxative. It is guaranteed. Do not risk taking any but the genuine in the yellow package. H. P. Dunn & Co. mfw

LABOR MEETING

At Trades and Labor Hall, Thursday
Evening, Oct. 25th, by Well

Known Organizers.

The laboring men of Brainerd are invited to attend a meeting at Trades and Labor hall on Thursday evening, Oct. 25th, at 8 o'clock, at which time Wm. Templeman and John Swift will deliver an address. The gentlemen are well known labor advocates and organizers and entertaining speakers and the meeting should be well attended by all interested.

DEERWOOD NOTES

R. C. Jamieson, of Duluth, was in the village on business Monday.

Miss Esther Shallman visited friends in Aitkin Thursday last.

Mrs. James McCarrel was at Brainerd on business Tuesday.

Mrs. Robert Archibald was visiting with friends in Aitkin last week.

Miss Emma Howe returned a few days ago from a visit in southern Minnesota.

Frank Oberg, of Deerwood, was transacting business in Brainerd the first of the week.

Swan Nelson, who was recently accidentally shot, is improving and will soon be all right.

C. A. Neuman, of Duluth, was in Deerwood Saturday looking after his land interests.

Henry Ritchie arrived Tuesday from southern Minnesota to visit his daughter, Mrs. Colman.

A break-in-two of an extra freight at Kimberly Tuesday evening delayed No. 13 over two hours.

Louis Berg, John Aune and Ole Bjornes were down from Brainerd to attend the Oberg wedding reception.

Nels Berghelm, democratic candidate for the legislature addressed the people of Deerwood and vicinity Tuesday evening.

Mr. and Mrs. Cuyler Adams celebrated their silver wedding Saturday night. A number of friends were down from Duluth.

Mr. Rathvon will organize a "New Movement Bible" class at the close of service Sunday morning at the Methodist church.

The public schools will give a supper at the school house Hallow e'en, Friday Oct. 31. The proceeds of the supper go to help for the piano now in the schools.

The reporter was misinformed as to the wedding anniversary of Mr. and Mrs. Hans Anderson last week. It was a tin wedding instead of a silver wedding.

The burg has been all torn up this week over the scraps of the school kids. Let the kids fight it out and they will be better friends than if the parents mix in and make it a neighborhood feud.

Louis Carlson was seriously hurt on Saturday. His team became unmanageable and he was thrown from the rig and his collar bone dislocated at the shoulder. He will be in bed at least three weeks and will be unable to work all winter.

Dr. Clemans, presiding elder of the Duluth district, will preach in the Methodist church Saturday evening, November 3, and will conduct the first quarterly conference, and will preach Sunday morning, November 4, at 10:30 and administer the sacrament of the Lord's supper. He will also preach at Bay lake Friday evening, November 2, and at Pointon's Thursday evening, November 1.

Carl E. Carlson has several unique curios on exhibition at Carlson Brothers' store. A recent addition is a spear head of pure copper which was found on Anton Torgerson's place near Deerwood a few days ago. He has also a Swedish dollar over 200 years old. It was made in the hard times then prevalent when silver and gold were so scarce as to be impossible to get and the coin is of copper about the size of a United States cent. Mr. Carlson has also a cartridge taken from the belt of Major Wilkinson at the time he was killed at Leech lake a few years ago. The cartridge is stained with his blood.

Advice to Housewives.

No home is so pleasant, regardless the comforts that money will buy, as when the entire family is in perfect health. A bottle of Orino Laxative Fruit Syrup costs 50c. It will cure every member of the family of constipation, sick headache or stomach trouble. H. P. Dunn & Co. mfw

Bemidji Man Drowned

Bemidji, Minn., Oct. 23.—Henry Buenther, of this place, was drowned Sunday in upper Red lake. Mr. Buenther was 47 years old, and had resided in Bemidji during the past five years. He leaves a wife and three children. He was a member of the Modern Samaritan lodge, but had allowed his dues to lapse for the past six months.

Buenther was considered one of the most skilled taxidermists in the western states, and he has done work for people residing in all parts of the United States.

SURPRISE IN WILL CONTEST.

Taking of Testimony in Schooley-Crawford Case Concluded.

Seranton, Pa., Oct. 24.—With a suddenness that was a surprise to the majority of those concerned, the taking of testimony in the Schooley-Crawford will contest in which a fight is being made for more than \$1,000,000 by George B. Schooley of Philadelphia, was brought to a close in less than an hour from the time it had been resumed after a week's adjournment. The surprise was occasioned by the fact that Mr. Schooley, who it was expected would call experts in rebuttal to show that the signature to the will offered by him was genuine failed to do so.

The Weakness of Old Age

As the years go by the blood gets thin, watery and impure, and fails to supply the nourishment required to keep vitality at high-water mark. Circulation gets bad, and the nervous system suffers. Besides the pains and aches, besides the weakness and dizziness, there are feelings of numbness which tell of the approach of paralysis and locomotor ataxia.

Judging from the experience of the thousands of old people who have tested Dr. A. W. Chase's Nerve Pills, they seem to be exactly suited to overcome these conditions, consequent on old age.

Unlike ordinary medicines, Dr. A. W. Chase's Nerve Pills are entirely restorative in action, and cure by forming new, firm flesh and tissue, and building up the system. 50 cents a box, at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. The portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

FIVE BANDITS WHO ROBBED THE
BANK AT SAWYER, N. D., ARE
CAPTURED.

ROBBER WOUNDED IN FIGHT

THREE THOUSAND DOLLARS OF
THE STOLEN MONEY HAS
BEEN RECOVERED.

Minot, N. D., Oct. 24.—After a chase lasting thirty-six hours the sheriff's posse succeeded in capturing the five bandits who robbed the Sawyer, N. D., bank early Monday morning, when a battle ensued with citizens during which 300 shots were fired, the robbers getting away with \$4,600. The men were discovered on a farm near here. Escape was attempted and in the fight that followed one robber was severely wounded in the leg. Another member of the party ran into a slough with \$900 in gold and bills and dropped the money into the water. Money was also scattered on the prairie by the bandits. Chief of Police Hagen secured \$3,000 of the money.

Four of the captured men are young and well dressed, none being over twenty-five years old. The leader is a hardened looking criminal, somewhat older. The money was being carried in bags and was composed of gold and bills, all the heavy silver having been thrown away.

AMERICAN SOCIETY OF EQUITY.

First National Convention Being Held at East St. Louis, Ill.

East St. Louis, Ill., Oct. 24.—The first national convention of the American Society of Equity, composed of farmers, began here with more than 500 delegates present from Illinois, Kentucky, New York, North Carolina, Utah, Wisconsin, Ohio and Indiana. The convention seeks to regulate values of grain and farm produce by regulating the supply in relation to the demand.

In his annual address President Drayton said:

"This is not a trust, nor a combine to force extortionate prices, but rather an organization to get profitable prices for farm products. It is composed of local unions of farmers, established at shipping points. The unions from these points form the state association. These combined form the national association. Our idea is to establish granaries in the grain country, cold storage plants, hay barns and places to store all sorts of farm products.

"If the market is low the society will hold the product until the demand forces up profitable prices, when the goods may be sold. The poor farmer who cannot afford to hold his grain will be given a warehouse receipt, good for two-thirds the face value of the grain represented."

SEARCHING FOR MISSING GEMS.

Cleveland Police Trying to Locate Those Stolen From Anna Held.

Cleveland, Oct. 24.—The police of this city and a detective agency are working diligently to discover the whereabouts of \$150,000 worth of jewels which Anna Held, the actress, reported were stolen from her on a Pennsylvania train while coming into Cleveland early Monday morning. The gems, said to include many very elaborate and valuable pieces, were stolen from Miss Held's stateroom while she and her husband, Florence Seigfeld, Jr., were temporarily absent from it. The gems were in a small hand satchel, which also contained over \$6,000 in money and papers, bank-books, etc., which Miss Held said she valued at \$100,000. When the case was first reported to the local police they were incredulous, but Chief Kohler says he is now convinced that the robbery was committed.

Miss Held gave a description of two men on the train she said she suspected and the detective agency reported that they had got trace of one of them in Baltimore. Miss Held says she believes she was followed by the two men from Baltimore to this city. The actress appears grief-stricken over her loss and says the satchel contained her entire fortune.

WORST STORM ON RECORD.

Blizzard Still Raging in Eastern Colorado.

Denver, Oct. 24.—Eastern Colorado is still experiencing a blizzard, but the weather bureau holds out hope of clearing weather soon. Snow has ceased falling in Denver, the storm center having moved eastward. The storm takes rank as the most severe at this time of year of which the weather bureau has any record. Snow began falling here last Friday night and continued about ninety hours. The actual fall in Denver was about twenty-one inches, and in some other portions of the state it was four feet or more.

The weather map shows a great change in weather conditions in the past twenty-four hours. The low pressure which has prevailed over Northern Colorado and its eastern strip and Southern Wyoming has filled up.

British Steamer Kanawha Arrives at Havana.

Havana, Oct. 24.—The British steamer Kanawha, Captain Maxwell, which left Newport News Oct. 16 for this port with 600 horses of the Eleventh cavalry on board, has arrived here after having suffered severely in the recent cyclone. One hundred and twelve horses were lost. Twelve were swept overboard by a tidal wave off Savannah and the remainder were lost during the cyclone. The steamer sustained damage to her superstructure and her foremast was carried away.

A battalion of the Seventeenth infantry has left Camp Columbia for Diego de Avila.

There are now but three cases of yellow fever in Havana. Of the fifteen fever cases reported since Oct. 2 ten have been discharged and two have died.

The cruiser Denver will leave here early in the morning for Norfolk with ninety marines.

Spanish Bark Missing.

Brunswick, Ga., Oct. 24.—The Spanish bark P. G. Captain Oliver, which sailed from Havana Oct. 2 for this port, is believed to have been lost in the recent hurricane. She is ten days overdue and no report has been heard from her. The consignees here believe that she has gone down with all on board.

The Lonely Life

The Tragic Confession of a Spinster, Who Realizes That No Fame or Wealth Can Compensate for the Solitude of Her Life.

In this article the author, whose name for obvious reasons we are not at liberty to disclose, drops for once the mask which she in common with other "Bachelor Maids," is accustomed to turn to the world.

Though no longer young, she frankly says she longs for the companionship of a husband and the care of children. The circumstances which have kept from her the happiness which these blessings bring are stated with the same directness which characterizes the whole article. It is the life-story of a "successful" woman, a drama of real life in which the last act is a tragedy.
